PROFILE

Senior Software Engineer with over 6 years of expertise in full-stack development, specializing in **JavaScript, TypeScript, React Native, React and Node.js**. For the past couple of years, I've contributed to multiple projects in the fintech industry, leading critical optimization initiatives and feature development. Background in Electrical Engineering with academic focus on robotics and AI. I combine technical excellence with a passion for creating impactful, user-centric solutions through cross-functional team collaboration while delivering clean, well-tested code.

EXPERIENCE

Senior Software Engineer, Praxent – Austin, Texas, US - Remote   January 2023 - Present

- At **Praxent**, a **fintech-focused software development partner** that helps financial companies excel with a track record of over **450 digital transformations**. I've contributed to several projects for insurance, banking, investments, and trading companies, **successfully leading refactors, solving critical bugs and boosting performance**;
- Helped a white-label banking Saas application process **$2 B in transfers** in the past year and support **thousands of daily access**. Also **cut 95% of costs** in a third-party api consumption without compromising user experience;
- Fully refactored a web application, implementing ADA and WCAG 2 compliant accessibility measures;

    Stacks: Javascript, TypeScript, React, React Native, Expo, PHP/Laravel, Node.js, AWS, MySQL, MongoDB.

Software Engineer, Contractor   March 2022 - February 2023

- Developed iOS/Android apps for a houseplant lovers community with **+10k downloads** and **4 star rating**. Implemented in-app purchases and subscriptions for both app stores. Projected AR features and AI image analysis.
- Architected and built a SaaS solution for voice professionals using AI to leverage high quality speech processing.

    Stacks: Javascript, TypeScript, React, Remix, React Native, Tailwind, Expo, AI, Node.js, AWS, SQLite.

Mobile Tech Lead, Slabware – Vila Velha, ES - Hybrid   January 2020 - February 2022

- Developed **React Native enterprise apps** from scratch for SlabWare, a global stone industry platform with hundreds of subscribers, enabling warehouse stock management and ordering with **offline and camera capabilities**.
- Led development architecture, release cycles, and mentored peers while collaborating with UI and backend teams.

Mobile Developer, Wine – Vitória, ES   August 2018 - December 2019

- Wine is Latin America's largest wine e-commerce platform with **400K subscribers**. I've joined the initial mobile team and build the foundation for Wine's mobile apps (**4.8 star rating, 1M+ downloads**) using React Native.
- Implemented core features like **native payment integrations** and search while mentoring new team members.

CERTIFICATIONS

AWS Cloud Practitioner   Amazon Web Services • 2022

EDUCATION

Bachelor's degree, Electrical Engineering with Computer Science   2021
Federal University of Espirito Santo - UFES,

SwB Scolarship Exchange Year, Electrical and Electronics Engineering   2015
University of Surrey, UK,

SKILLS

Languages: JavaScript, TypeScript, Python, PHP, C, C++, HTML, CSS, SQL, GraphQL

Libraries & Frameworks: React Native, Expo, React, Remix, Next, Nest, Node.js, Laravel, Prisma, Tailwind

Tools & Platforms: Git, Docker, MySQL, SQLite, MongoDB, Firebase, Xcode, Android Studio, AWS
